

THE IMPEACHABLE OFFENSES OF BARACK OBAMA

(Updated Nov. 17, 2010)

Whether or not the constitutional process of impeachment is appropriate in the case of Barack Obama is currently being debated. This is not because of argument over whether there are sufficient grounds, however. As anyone can see from the list below, no one else in history has generated more justification for impeachment. Rather, given Obama's Kenyan birth, Kenyan parentage, and Kenyan-Indonesian citizenship, it may be more appropriate to simply declare his occupation of the White House void, lacking any Constitutional basis. Nevertheless, here is the growing list of reasons for removal.

1. Obama's term as Board Chair of the Chicago Annenberg Challenge in the mid-1990s where he and his colleague, unrepentant terrorist William Ayers, **misused over \$300 million in private donations meant to improve the education of minorities**. Instead of spending the money on traditional learning programs, Obama and Ayers directed the funds to local community activists who wasted it on trying to "radicalize" the students. An official review of the program found that it was a complete and utter failure.

2. As an Illinois State Senator, Obama **directed tens of millions in state money to slumlords Valerie Jarrett and Tony Rezko** meant to provide for housing for low income, minority tenants **in return for political donations**. Due to shoddy construction and nonexistent maintenance, the majority of the units, after less than 10 years of use, have been rendered uninhabitable.

3. **Michelle Obama's politically connected \$316,000 VP of Community Affairs job** at University of Chicago Hospitals **while her husband was serving as US Senator**. She was responsible for the design of an illegal "patient dumping" scheme that prevents local African Americans from using the emergency room at one of the nation's finest hospitals and instead redirects them to community healthcare centers where they often receive substandard and inadequate treatment. The high paying position was eliminated soon after Mrs. Obama's departure from the university.

4. **Apparent purchase of a diploma from Columbia university**. Obama tries to explain his absence from Columbia by saying "I lived like a hermit." In truth, there is *not one credible trace of him actually having attended classes there*, let alone of him having lived anywhere near the campus. *There is greater weight of evidence that he was actually in Pakistan*, at the behest of Zbigniew Brzezinski, who *is* a professor there.

5. **Millions in illegal contributions accepted by the Obama campaign during his presidential run**. Credit card filters designed to screen out foreign money and domestic donors who had maxed out their legally allowable limits, as required by US law, were intentionally switched off.

6. **Secretary of State Hillary Clinton's ongoing effort to create international small arms accords that will subvert the Second Amendment rights of US citizens**.

7. The Russian-American START treaty signed by Obama in April 2010 that has no chance of making it through Congress unless passed during the lame duck session. Not only does the treaty hamstring US missile defense development and make it difficult to modernize our rapidly aging nuclear weapons arsenal, it represents **unilateral disarmament by the US** in return for nothing more than Russian "good will".

8. **Moving control of the Census Bureau from the Commerce Department directly into the White House** where it is managed by Chief of Staff Rham Emmanuel.

9. **Providing de facto amnesty to illegal immigrants** by Immigrations and Customs Enforcement (ICE) Director John Morton, who has **prohibited ICE officers from enforcing US immigration laws** outside the institutional setting. The ICE union has subsequently taken the unprecedented step of voting “no confidence” in Morton’s leadership.

10. Attorney General Erik Holder’s **failure to sue sanctuary cities for violating US immigration law**, while at the same time proceeding with a lawsuit against the State of Arizona for enforcing US immigration law.

11. **Failure by Obama to treat the takeover of sovereign land in Arizona by the Mexican drug cartel as an Act of War.**

12. Ongoing **efforts by FCC Chairman Julius Genachowski to gain control over the internet** in opposition to a judge’s ruling and Congress’s will, by reclassifying internet companies as telecommunication providers thus making them subject to FCC regulation.

13. Obama and his environmentalist allies **preventing US industries from taking advantage of our rich natural resources including oil, coal, uranium and timber.**

14. **Obama’s month long stint as UN Security Council Chair in 2009, the first ever by a sitting U.S. “President”, in clear violation of Constitutional law.** Not only did this action give credibility to an international organization ruled by tyrants, it also called into question potential **dual loyalties** by our President.

15. **The Obama National Security Strategy released in May that allows for the targeted assassination of US citizens including “homegrown terrorists” without due process.** It has also been described by the Kremlin, which knows quite a lot about these kinds of things, as a “new law put forth by President Obama capable of seeing up to 500,000 American citizens jailed for the crime of opposing their government.”

16. **Obama executive order signed in Dec. 2009 that allows Interpol to operate in US territory with impunity and without oversight by Congress, the courts, FBI or local law enforcement.**

17. **Deployment of 1,200 National Guard troops to border states where they will not, under any circumstances, be used to stop the flow of illegal aliens or drug traffickers.**

18. A foreign policy that can be best described as the turning away of our allies, in particular Great Britain, Israel, Honduras, Poland, Columbia, and Taiwan, and **the embracement of our enemies** (i.e., *treason*).

19. **The State Department using \$23 million in taxpayer money to help transform Kenya into a constitutionally communist nation** where the freedom of speech is limited and private property rights are subservient to “social justice”. In addition, the recently adopted Kenyan constitution allows for the practice of Sharia Law in some regions, ensuring women will not be guaranteed basic human rights.

20. **Conducting independent foreign policy and diplomacy as a senator - without sanction, and in violation of existing law.** Barack Obama misused millions in taxpayer money on bogus “fact finding” missions to aid his Muslim supremacist cousin Raila Odinga in his election bid in Kenya.

21. **Instigating violent overthrow** of a religiously tolerant, U.S. friendly democratic government in Kenya. According to intercepted emails, **Barack Obama was directing his cousin Raila Odinga to use violence and intimidation** if he could not democratically take power in Kenya. Death and bloodshed followed.

22. **Helping to shelter terrorists wanted by the U.S.** Barack Obama apparently was aware that, in helping his cousin Raila Odinga to take power in Kenya, he was helping to establish a terrorist “safe haven”, as required by Odinga’s secret agreement with Islamic factions. (According to law, this makes Barack Obama himself an enemy of the U.S., by working to give aid and protection to terrorists. See definition of **treason** at end of list.)

23. **Obama’s refusal to hold press conferences** and answer difficult questions as **expected of a US President**. Never in the modern age has there been a President so unwilling to answer to the American people for his actions. Considering the public’s growing anger towards his progressive policies, it is doubtful Obama will ever hold another press conference again.

24. **The \$26 billion bailout of the teacher’s unions** that Obama recently signed into law. Not only was the money taken from food stamp programs for poor Americans in order to fund Democrat special interests, a portion will be skimmed off the top as union dues and funneled to Democrat political campaigns this fall.

25. **Obama’s involvement with Governor Rod Blagojevich’s attempt to sell his old Illinois Senate seat**. Even if Obama didn’t try to purchase the position for his chosen replacement, slumlord Valerie Jarrett, at the very least he had to know the seat was for sale.

26. **Department of Interior Secretary Ken Salazar’s plans to take control of millions of acres of public and private land in Western states** by designating them national monuments. These efforts are being carried out in secret and without input from Congress, state and local officials and current land owners.

27. **Obama’s use of taxpayer money to pay for Democrat propaganda** including \$15 million for The American Reinvestment and Recovery Act road signs and \$18 million for the perpetually misleading recovery.gov website.

28. The lasting **damage Obama has done to the Jewish people**. In his less than two years in office, there has been an outpouring of hatred towards the Jews the likes of which I thought I would never live to see. From Helen Thomas telling the Jews to “get the hell out of Palestine” to heavily armed, terrorist flotillas destined for the Gaza Strip described as “peaceful” by the western press. From throwing stones at little old ladies leaving synagogue in Sweden to the thousands of Jewish families fleeing Muslim persecution in France, a sea change in world public opinion against the Jewish people has been accomplished during Obama’s term. Because of his refusal to speak out against virulent anti-Semitism being pushed by left-wing politicians and Islamists around the world, the harm to the Jewish people will surely outlive his presidency and could have terrible, unforeseen consequences.

29. **Convicted felon and Chicago real estate developer Tony Rezko’s purchase of land adjacent to Obama’s house** in Hyde Park, IL. In 2006, Rezko sold a 10 foot strip of his property to Obama for \$104,500, rendering the remainder of Rezko’s \$625,000 investment too small to be developed and, for all intents and purposes, worthless.

30. **Lying on his Illinois State Bar application**. Barack Obama knowingly omitted information about his previous identities (i.e., Barry Soetoro etc.) when applying for membership as a lawyer in the State Bar Association.

31. **Identity theft and fraud**. Barack Obama is using a Connecticut Social Security Number (SSN) in official documents. It obviously does not belong to him legally. It also appears he has used a wide array of other SSNs in the past – also fraudulently.

32. **Falsification of selective service registration.** Document examiners have found obvious fraud and tampering in Barack Obama's registration for selective service, which was evidently perpetrated in order to make the document appear that it had been filed many years before it actually was (for political purposes.)

33. **Lying about which hospital he was born in.** In an attempted coverup over the controversy about his actual birthplace, Barack Obama has laid claim to being born at two different hospitals. In fact, neither hospital has any record of Obama or his mother ever having been registered in them as a patient (or any of the hospitals in Hawaii.)

34. **The provision of Obama campaign donor lists to ACORN in 2007 and 2008, more complete than the ones he gave to the Federal Elections Commission.** ACORN used the lists to raise money for Obama's election from donors who had already maxed out their legally allowable contributions.

35. **Circumventing an official travel ban to Pakistan.** By his own admission, Obama knowingly violated the then existing travel ban to Pakistan by U.S. residents. He evidently did this by using a foreign passport.

36. **Illegal use of "casual hypnosis" techniques.** Experts on the use of hypnosis are in agreement that Barack Obama received training and then made use of hypnosis methods during his campaign. This was to deliberately circumvent rational or critical thinking in masses of people. Such methods are well known and also illegal.

37. **Widespread voter fraud** including voter intimidation, ballot stuffing, falsified documents, and threats of violence against Hillary Clinton supporters committed by the Obama campaign and ACORN during the 2008 Democrat primary election. For more information see my CFP article [How Obama Used an Army of Thugs to Steal the 2008 Democratic Party Nomination.](#)

38. **Obama's refusal to release his long form birth certificate** which would show conclusively that he is a dual citizen and therefore not constitutionally eligible to serve as President. Obama's college records, which have also not been released, would also contain information regarding his dual citizenship status.

39. **Protecting union interests over those of GM and Chrysler bond holders during bankruptcy proceedings, forcing investors to accept millions of dollars in losses in direct violation of bankruptcy laws,** money to which they were legally entitled.

40. **Preferential treatment given to minority and women owned car dealerships by Obama administration officials** as part of the auto industry bailout program and the forced closing of a disproportionate number of dealerships located in rural areas that did not vote for Obama.

41. **Unsubstantiated firing of Corporation for National and Community Service Inspector General Gerald Walpin for exposing Sacramento Mayor and Obama supporter Kevin Johnson's misuse of an \$850,000 AmeriCorps grant.**

42. **Purchase of Congressional support (bribery)** for the passage of Obama's healthcare bill including the "Cornhusker Kickback", "Louisiana Purchase" and having the Department of Interior increase water allocations to the Central Valley of California to secure the votes of Democrat Reps. Dennis Cardoza and Jim Costa.

43. **Lying to the American people by promising they could keep their healthcare coverage if they wanted to,** when in reality *tens of millions will be forced out of their current plans.*

44. **Attempted bribery of Rep. Joe Sestak** with job offers to get him to drop out of the Senate primary race against Senator Arlen Specter.

45. **Directing the EPA to unilaterally set carbon emission standards, thus unconstitutionally bypassing Congress** which opposed Obama's energy reform bill. For more information see my CFP article Forget Cap and Trade: [EPA Regulation of CO2 Emissions Will Begin in 10 Months.](#)

46. **The Obama administration's statement (*lie*) that a panel of experts had agreed with their plan for a 6 month Gulf Coast drilling moratorium, when in actuality none of them had supported the measure.**

47. **Bullying BP to set up a \$20 billion slush fund to compensate Gulf Coast businesses and residents affected by the oil spill, to be administered by an Obama political appointee *without any judicial or congressional oversight.***

48. **Implementing a third oil-drilling moratorium after *the first two were thrown out of court*, creating a de facto Gulf Coast offshore drilling ban in opposition to two judge's rulings.**

49. **Obama's policy of *intentionally not securing our nation's borders*, in opposition to Article IV, Section 4 of the Constitution** which calls for the President to protect states from foreign invasion, in an attempt to blackmail Republican support for comprehensive immigration reform. In essence, Obama is holding border states and residents politically hostage during a time they are being overrun by a narco-paramilitary invasion.

50. **Department of Justice *illegal race based policies* regarding voter fraud** as exposed by former Justice attorney J. Christian Adams. This includes the dropping of voter intimidation charges against 2 Black Panthers brandishing weapons in front of a voting location in Philadelphia and the stated intention by political appointees to ignore voter crimes committed by African Americans, Latinos and other minorities.

51. **Department of Justice purposefully allowing some states to continue their disenfranchisement of military personnel serving overseas *in direct opposition to the 2009 Military and Overseas Voter Empowerment (MOVE) Act***, which was established in response to the more than 17,000 military votes that were not counted in the 2008 election because ballots had arrived after the deadline.

52. **Recess appointment of Donald Berwick as head of the Centers for Medicare and Medicaid Services without even a token attempt to put him through the Congressional nomination process**, signaling that Congress's constitutional obligation to vet presidential appointees means nothing to Obama. *The same can be said of the 30+ Obama administration czars.*

53. **Tampering with the Supreme Court after an active case concerning him had been filed.** Barack Obama held a secret meeting with the Supreme Court almost immediately after being 'sworn in'... *behind closed doors*. No one would reveal what had been discussed; but shortly afterward, *the papers filed in the case challenging Obama's constitutional eligibility to hold presidential office mysteriously disappeared.*

54. **Supreme Court Tampering, part II.** Elena Kagan - Barack Obama's appointee for Supreme Court Justice - had in fact been *Barack Obama's own attorney, representing him in Supreme Court cases* involving Obama's citizenship, and **Constitutional eligibility** for the presidency. This is proven directly from the Supreme Court website;

<http://www.supremecourt.gov/Search.aspx?FileName=/docketfiles/09-6790.htm>
<http://www.supremecourt.gov/Search.aspx?FileName=/docketfiles/09-8857.htm>

There is still a Supreme Court case pending for Obama's citizenship and eligibility to be president; the Senate allowed Obama to stack the court in his own favor by their approval. OBAMA CHOSE HIS OWN ATTORNEY AND ADVOCATE, TO BE HIS NEW JUDGE. This is perhaps the *most extreme case of corruption and conflict of interest in U.S. history*.

55. Fraud and perjury in taking an oath of office. The oath of office requires a statement to defend the Constitution against all enemies – foreign and domestic. Barack Obama himself is on tape as saying that the Constitution is “deeply flawed” and an obstacle to his own political objectives. *Taking the oath with purpose of evasion nullifies the oath.* It is also an open act of perjury on his part.

56. Spending \$23 million of taxpayer money through the U.S. Agency for International Development (USAID) to support a constitutional referendum in Kenya in spite of the Siljander Amendment, which makes it illegal for the U.S. to lobby for abortion in other countries. The Kenyan referendum was partially written by Planned Parenthood and is designed to legalize abortion in that nation.

57. The participation of the Obama administration in the firing of Sherry Sherrod from the USDA without due process because of publicized out of context remarks she made at a NAACP meeting in March 2010.

58. The White House sham investigation of BP's involvement in the release of the mass murdering Lockerbie bomber from prison. *The Obama administration not only knew beforehand of the Scottish government's plan to set Abdel Baset al-Megrahi free on “compassionate” grounds, they even sent a letter to Scottish authorities stating their preference for his remaining in Scotland over his transfer to a Libyan prison.*

59. The canceling of 77 properly filed oil field development contracts approved by the Bush administration by Interior Secretary Ken Salazar, preventing the extraction of up to 3 trillion gallons of oil buried under Colorado, Utah, Wyoming and North Dakota, more than enough to end our dependence on foreign oil and supply the U.S. with its energy needs *for hundreds of years* at current consumption rates.

60. Instigation of the “Universal Slavery Act” HR-5741. It is no exaggeration to say that this bill, if enacted, would force all U.S. citizens into involuntary servitude (i.e., slavery), in clear violation of the Bill of Rights and human decency. Amazingly, Barack Obama would see this as the fulfillment of a campaign promise.

61. Investigations by the Department of Homeland Security to determine the political affiliation of people making Freedom of Information Act requests and the subsequent *delay and even altogether ignoring of requests made by Republican affiliated individuals.*

62. Loyalty to foreign sovereigns, in violation of Constitutional requirements. Not only does Barack Obama regularly fail to show allegiance to the U.S. flag, but his bowing to leaders of foreign nations is an open and obvious show of fealty to them. *The Constitution demands allegiance to the U.S. alone.*

63. Generational theft of trillions of U.S. taxpayer dollars. Thanks to Obama's theft of taxpayer money for bogus “stimulus plans”, several generations will be indebted with tax burdens they can never repay, making them ‘slaves to the

government'. The real purpose for this money seems to have been as a colossal gift to large corporations – in thanks for their political and financial support.

64. The hardest to prosecute in court, but worst crime of all that Obama has perpetrated against the American people is the **economic tyranny his socialist policies have wrecked upon our nation**. While Obama has been living the life of a king including frequent 5 star vacations, dozens of concerts at the White House and endless rounds of golf, all paid for by taxpayer money—the increased transportation and security costs alone are in the millions of dollars—he has called for the rest of us to endure economic sacrifice. The annual trillion dollar deficits and borrowing of 41 cents of every dollar of federal spending by Obama is leading to unsustainable and potentially catastrophic national debt.

Definition of Treason: *United States Code at 18 U.S.C. § 2381 states:* "whoever, owing allegiance to the United States, levies war against them or adheres to their enemies, giving them aid and comfort within the United States or elsewhere, is guilty of treason and shall suffer death, or shall be imprisoned not less than five years and fined under this title but not less than \$10,000; and shall be incapable of holding any office under the United States."

Removal of Barack Obama represents a critical turning point in U.S. history – an imperative for the recovery of the United States from this era of greed, mendacity, and corruption. Remember, Richard Nixon was forced to leave the presidency over eight minutes of blank tape. G. Gordon Liddy was jailed in connection with Nixon for trying to uncover a prostitution ring. The pall of evil hanging over us at this time is *colossal* by comparison. Only the inept complicity of the press has allowed the rodents in the White House to infest it for this long – but it shall not go on forever. Please help in any way that you can to further this aim, and future generations will thank you.
